## TRANSDUCER MOUNTING HOLE DRILL KIT

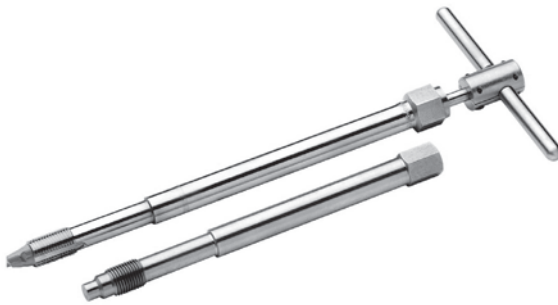

The Transducer Mounting Hole Drill Kit contains the necessary drill bits and taps needed in order to machine a standard 1/2-20 UNF transducer mounting hole, including a special step drill required to machine the 45° seat. Comes in storage case with instructions.

- DK-4.....\$ *call us for pricing* ea.
- SD-1/2 (Step Drill Only) .....\$ *or visit our e-store* ea.

**Also Available in 5/8" and 3/4"**

## TRANSDUCER MOUNTING HOLE CLEANING TOOL KIT

This cleaning tool kit provides two tools to remove excess plastic from transducer mounting holes, prior to installation. Installation of transducers into plugged and/or dirty mounting holes is a major cause of installation related damage. The cleaning tool is to be used when the polymer is molten. Comes in storage case with instructions.

CT-12 (2 tool kit) .....\$340.00

CT-3 (3 tool kit).....\$350.00

## MOUNTING SHIMS AND SPACERS

- Use to move back transducer to prevent tip damage
- 0.003", 0.008", 0.010" thick
- Brass
- Spacers - Copper
